Detailed Description

Detailed Description

... measure of the public sector organization.

Determining a relative performance measure can include evaluating the **performance** of the **public sector** organization as a function of **time** . A proposed solution for improving the relative performance **measure** can be derived on the basis of evaluating the **performance** of the **public sector** organization as a function of **time** . Alternatively, or additionally, a relative performance **measure** can be **determined** by evaluating the **performance** of the **public sector** organization by comparing one public sector organization having one relative performance measure to another public...

...may become clear what services and offerings the organization may require to help create greater **value** .

A **public sector** organization using the model according to the **present**

invention may enable the organization to **measure** and compare performance based on value (e.g. between business units, and internationally), and guide...

A multiple-indicator approach to municipal service evaluation:

Correlating

performance measurement and citizen satisfaction across jurisdictions

Kelly, Janet M; Swindell, David

Public Administration Review v62n5 PP: 610-621 Sep/Oct 2002

ISSN: 0033-3352 JRNL CODE: PAR

WORD COUNT: 7260

...TEXT: review patterns of satisfaction across localities. We also need to understand the relationship between administrative **performance measures** and citizen perceptions. This crosssectional analysis of **municipal** citizen satisfaction and **performance** benchmark data suggests that citizen satisfaction survey results are useful to managers in conjunction with **performance - measurement** programs as part of a multiple-indicator approach to **evaluating municipal** service quality. However, understanding citizen perceptions requires a different perspective than that applied to administrative service **performance measurement** .

Introduction

Each **year** , thousands of cities engage in administrative **performance assessment** . Recent research suggests that more than a third of municipalities with populations exceeding 25,000...

...their assessments as the basis for making budgetary and policy decisions (Poister and Streib 1999). **Performance assessment** is often implemented as a series of specific performance measures associated with certain service functions...

Reinventing the proverbs of government

Williams, Daniel W

Public Administration Review v60n6 PP: 522-534 Nov/Dec 2000

ISSN: 0033-3352 JRNL CODE: PAR

WORD COUNT: 9967

...TEXT: Vice President Gore's reform commission, the National Performance Review, and to subsequent legislation labeled **Government Performance** and Results Act. Clearly, **performance measurement** is an important technique for these texts. All too often, discussions of **performance measurement** leave the inexperienced audience believing that it is a new technique. In fact, the **performance measurement** literature begins as early as 1910 according to endnotes in Clarence Ridley's 1927 text, **Measuring Municipal Government** (Ridley 1927). While there has been development within the practice of **performance measurement** over the past 90 years, there are no particular paradigmatic changes that originate in the last 10 to 20 years.

Acknowledging that **performance measurement** by itself fails to generate the motivation necessary to accomplish the reforms they have in mind, Osborne and coauthors advocate a variety of methods to leverage **performance measurement** through the budget process. For example, a five-page section of Reinventing Government is headed...
